DASCOM®
SOLUTIONS FOR BUSINESS PRINTING

Compact And Fast

1330

Whether you're using continuous and multipart paper for invoices and cargo manifests, or single pages such as receipts, prescriptions, or application forms: using Tally Dascom 1330 printer, you're always on the right page. Despite this, the printers take up very little space, thanks to their compact design. Using a pull tractor, continuous paper can be quickly and simply processed. During single-page use, the flat-bed design ensures error-free handling of thick paper or form sets, with up to six carbon copies.

T5040

The wide range of automatic functions of the Tally T5040 facilitates work processes to a simply enormous extent. Document orientation ensures the proper printing of forms – regardless of paper size. Print head distance is automatically adjusted to accommodate thicker materials such as savings books and passports. This reduces processing times to a minimum and ensures a low incidence of operating mistakes.

DASCOM®

ABOUT DASCOM

The DASCOM group was founded 1988 and is established in Hong Kong. As of today, DASCOM is a private conglomerate operating an array of business focuses. Located in Ulm (Germany), DASCOM Europe GmbH is the European headquarters and was founded in May 2009. We market the full range of serial, passbook, mobile and thermal printers under the "Tally" or "Tally Dascom" brand names.

DOT MATRIX PRINTERS

You may have thought dot matrix printers had had their day. Not so. In fact a growing number of organisations are returning to dot matrix printers, largely because of the cost benefits as well as robustness and reliability. DASCOM's range of dot matrix printers are well matched with Microsoft Windows applications, and highly compatible with other host operation environments including legacy systems such as Unix, IBM Mainframe and AS400 (iSeries), SAP and even the many MS-DOS applications still being used.

FLATBED PRINTERS

Flatbed printers are built for task critical situations, ideal for front office applications in retail outlets, travel agents, train stations, banks and doctor's surgeries where space is limited. They can be used for printing multi-part forms like invoices and delivery notes or cut sheet applications like printing receipts, prescriptions and documents - The Tally Dascom Flatbed printers keep transactions smooth and you will always get excellent results.

MOBILE PRINTERS

Printing requirements now extend beyond the warehouse and office into the delivery vehicles themselves. The need to print a delivery note or invoice at the same time as delivering your goods – complete with your company's sales and marketing message of the day – is fast becoming the norm. DASCOM's MIP480 provides wide format printing output. Multi copy provides for signatures as proof of receipt of goods. DASCOM mobile devices rigorously withstand the constant abuse of road vibration and environmental conditions guaranteeing years of trouble-free operation.

THERMAL PRINTERS

Of course, we're already well known for our extensive range of business-class printers. Now you can enjoy this same level of excellence with our range of thermal printers. Which is great news, because thermal comes into its own in so many sectors, and for so many applications. From shelf edge labelling in retail, to specimen tracking and prescription printing in healthcare, and labelling in the manufacturing, transportation, airline, chemical and pharmaceutical industries, thermal printing makes perfect sense.

CARD PRINTERS

DASCOM card printers reliably produce printouts on a large number of plastic cards and have advantages that set them apart from other card printers. Our business devices are designed for demanding applications and larger print runs that can be output on one or both sides.
