Service

The DASCOM group was founded 1988 and is established in Hong Kong. As of today, DASCOM is a private conglomerate operating an array of business focuses.

Located in Ulm (Germany) DASCOM Europe GmbH is the European headquarter of the company, and was founded in May 2009. We manufacture and market the strongest range of dot matrix, passbook, flatbed, mobile and thermal printers under both the 'Tally' and 'Tally Dascom' brand names. In addition to that we are also offering state-of-the-art card printers.

Whether you print barcodes, labels, invoices, listing reports or other critical documents, we offer the advanced technology and customised solutions that keep your business running. Our products are used in most major industries including logistics, retail, healthcare, automotive, manufacturing, telecommunications, government, aviation, transportation and warehousing/distribution.

DASCOM builds ultra-reliable business printers and we offer the highest standards of support to all customers. Our technical team is on hand should you need them wherever you are located. And our service team is there to provide engineering resource, warranty upgrades and maintenance contracts.

CARD PRINTERS

	DC-2300	DC-3300	DC-7600
	<p>DC-2300 The DASCOM DC-2300 is a direct thermal card printer that was specially developed for front desk applications. With its compact design, this printer doesn't take up a lot of desk space, but it delivers fast, razor-sharp results.</p>	<p>DC-3300 Direct thermal printing technique is developed by making use of based on sublimation dye ribbon. When the ribbon and card pass through the print head, the head heats the dye on the ribbon.</p>	<p>DC-7600 Retransfer print technology is the next level of Direct-to-Card technology. This technique is suitable for edge-to-edge printing, heavy duty printing, improves reliability and thus suitable for a large variety of card types.</p>
